

“Mindfulness-Based Stress Reduction”

2021 Livestreamed

Program Application #: 123682

Description: In this 8-week training, Ali Turfe, MA, SSP, LLP, and qualified MBSR Instructor, will teach Mindfulness Based Stress Reduction (MBSR). MBSR is the gold standard in the world for mindfulness training. MBSR is a proven self-care practice. It is time-tested, evidence-based, and supported by more than 40 years of empirical research. Thousands of studies now point to the benefits of these practices in improving symptoms of chronic pain, anxiety, cardiopulmonary issues, and many more health and wellness issues affected by chronic stress. MBSR was developed in 1979 by Jon Kabat-Zinn, PhD at the University of Massachusetts Medical Center and is taught in hospitals across the world. Achieving a well-balanced life means being aware of all aspects of ourselves: mind, body, heart, and soul. Mindfulness Based Stress Reduction curriculum and methodology offers participants academic and experiential educational components. Learning objectives create a foundation for the cultivation of positive health behaviors and psychological and emotional resilience that can be effectively utilized across the adult life span. Participants should be able to integrate and apply mindfulness practices in their everyday lives and incorporate the tools and practices in ways beneficial to their students and staff. This training will be livestreamed via Zoom. Registration for the 8-week course (offered in three sections) is available before attending orientation on January 9th. In addition to the 8 sessions, participants must attend a day-long silent practice and commit to 45-60 minutes of daily home practice. This program is open to school psychologists and any other school-based professionals seeking to gain knowledge in the presentation topic. However, space is limited to 16 participants per section (48 total for the three sections). Participants can earn 21-27 SCECHs for completion of the training (allowing participants to miss a maximum of two classes or the silent practice day). Participation will be verified by requiring attendees to complete a Google docs form and submit an attendance log and their certificate of completion for the course. This training is being offered for free, and MASP no longer charges attendees a fee for SCECHs. More information can be found on the MASP website: masp.wildapricot.org and by e-mailing Ali Turfe at aliturfe429@gmail.com.
